Subject: European OG Qualifier postponed until May – New dates to be communicated

Dear President, dear colleagues,

As you may already have seen in the news, the Hungarian government has declared a state of emergency and taken several measures to limit the spread of the Covid-19 today, including the prohibition of indoor events of more than hundred participants.

For these reasons, the European OG Qualifier is postponed until May.

The exact dates will be communicated on a later stage.

We sincerely regret this decision since the local organizer had taken a series of sanitary measures to protect the health of all participants. Despite all these efforts, the government has set stringent conditions and this event cannot be held under such conditions. We ask all Federations concerned, teams and other participants not to travel to Budapest for the moment and until further notice.

We apologize for the inconvenience and thank you for your understanding.

Yours sincerely,

Nenad Lalovic

UWW President
